

## Lockout/Tagout and Live Electrical Permits

**Mark your calendar for this  
60- minute webinar**

**DATE: Thursday, July 11, 2019**

**TIME: 10 – 11 a.m.**

Most of us realize that workers who are servicing or maintaining equipment, or clearing jams, may be seriously injured if hazardous energy is not properly controlled. But let's refresh our knowledge and awareness!

Lockout/Tagout continues to be in the top 10 frequently cited OSHA standards. And, caught in-and-between equipment is one of the leading causes of OMA members' recordable injuries. This is often a result of lockout deficiencies.

The Lockout/Tagout OSHA standard provides guidance on establishing written procedures and training employees to prevent injury as a result of uncontrolled energy or unexpected startup of equipment.

### Key Topics

- Identifying authorized and affected employees
- Developing equipment-specific procedures
- Conducting a periodic Lockout/Tagout audit

### Who should attend?

- ✓ Safety and EH&S managers
- ✓ Human resources
- ✓ Training managers
- ✓ Operations managers
- ✓ Maintenance managers

**Registration fee** (for an unlimited number of participants at one phone/computer location)

1. OMA Workers' Compensation Services Members: **No charge**
2. All other OMA Members: **\$29**
3. Non-OMA Members: **\$39**
