

Attracting Funding Support for Industry Sector Partnerships and Local Workforce Initiatives

Mark your calendar for this 60-minute webinar
DATE: Thursday, August 13, 2020
TIME: 10 – 11 a.m.

Industry sector partnerships and other local workforce development initiatives require funding and resources to support on-the-job training, training program expansion, and apprenticeship/earn-and-learn programs.

Ohio's industry sector partnerships have developed resource guides for matching available regional, state, community, and philanthropic funding resources with local programming.

During this webinar, these partners will share tools and resources and provide guidance on how regional implementers and sector partnerships can use similar tools in their regions.

Additionally, we will share information to help industry sector partnerships best position their organizations to build relationships with—and qualify to receive resources from—philanthropic, community, state, and federal funding sources. A development specialist will offer tips for tapping into local community and philanthropic sources.

Register to learn how regional sector partnerships are helping to build the manufacturing talent pipeline!

Who should attend?

- ✓ Manufacturers interested in developing a pipeline of skilled workers
- ✓ Members of industry sector partnerships
- ✓ Workforce and education professionals
- ✓ Economic development professionals

Registration fee (for an unlimited number of participants at one phone/computer location)

- OMA Members: **\$19**
- Non-OMA Members: **\$19**
