

Walking-Working Surfaces & Fall Protection OSHA's 2017 standards

**Mark your calendar for this
60 minute webinar
DATE: Thursday, October 3, 2019
TIME: 10 – 11 a.m.**

Falls from heights and on the same level (a working surface) are among the leading causes of serious work-related injuries and deaths. In fact, the 2019 top OSHA citations were just announced, and fall protection was #1.

In 2017, OSHA's updated its rule on Walking-Working Surfaces and Personal Fall Protection Systems to better protect workers in manufacturing by updating and clarifying the standards and adding training and inspection requirements.

Specifically, OSHA standards address slip, trip, and fall hazards (subpart D), and include requirements for personal fall protection systems (subpart I).

Key Topics

- Employee training requirements
- Alternatives to guardrails when working at heights of 4' or greater
- Expected inspections of walking-working surfaces
- Changes to scaffold requirements
- Fixed ladder requirements now and changes required by 2036
- Building anchors used for rope decent systems

Who should attend?

- ✓ Safety and EH&S managers
- ✓ Human resources managers
- ✓ Operations managers
- ✓ Training managers

Registration fee (for an unlimited number of participants at one phone/computer location)

1. OMA Workers' Compensation Services Members: **No charge**
2. All other OMA Members: **\$29**
3. Non-OMA Members: **\$39**
