

Evaluate Your Hazard Communication Program Compliance

Mark your calendar for this 60-minute webinar

DATE: Thursday, October 1, 2020

TIME: 10 – 11 a.m.

The OSHA Hazard Communication Standard (HCS) – which is aligned with the Globally Harmonized System (GHS) – is intended to improve the safety and health of workers through more effective communications about chemical hazards.

Information about the identities and hazards of chemicals used in the workplace must be available and understandable to workers. But just how does OSHA evaluate employers' compliance in this area?

In FY 2019, the hazard communication standard was number two among OSHA's 10 most frequently cited standards following inspections of worksites.

Key Topics

- How does OSHA assess compliance?
- What are the steps for evaluating the adequacy of your program?
- What's required for training, labeling, and Safety Data Sheets (SDS)?

Who should attend?

- ✓ Safety and EH&S managers
- ✓ Plant & operations managers
- ✓ Human resources managers
- ✓ Training department managers

Registration fee (for an unlimited number of participants at one phone/computer location)

1. OMA Workers' Compensation Services Members: **No charge**
2. All other OMA Members: **\$29**
3. Non-OMA Members: **\$39**
