

## Leading Indicators that Support a Culture of Safety

**Mark your calendar for this 60-minute webinar**

**DATE: Thursday, November 5, 2020**

**TIME: 10 – 11 a.m.**

Safety professionals historically have used lagging indicators as the metrics to measure the success of their safety programs.

Common metrics are Total Incident Rate (TIR) and Days Away, Restricted or Transferred (DART).

According to OSHA and the [Campbell Institute at the National Safety Council](#), leading indicators are more valuable to achieve our goals, since they are proactive, predictive and preventive.

### Key Topics

1. Definitions of leading and lagging indicators;
2. The value of using leading indicators;
3. Examples of operations-based, systems-based, and behavior-based leading indicators; and
4. How to start using leading indicators in your facility.

### Who should attend?

- ✓ Safety and EH&S managers
- ✓ Plant & operations managers
- ✓ Human resources managers
- ✓ Training department managers

**Registration fee** (for an unlimited number of participants at one computer location)

1. OMA Workers' Compensation Services Members: **No charge**
2. All other OMA Members: **\$29**
3. Non-OMA Members: **\$39**
