OUR MISSION: PROTECT & GROW OHIO MANUFACTURING

James Lee, managing director of public policy services; Ryan Augsburger, president; Jacob Sargent, director of public policy services; Lindsey Short, managing director of advocacy and energy services; Dave O'Neil, director of communications; Lisa Cummings-Dye, director of marketing and events

Comprised of more than 1,300 member companies, the Ohio Manufacturers' Association is the state's largest business association exclusively representing Ohio manufacturing enterprises.

WHAT WE DO:

Manufacturing powers Ohio's economy, generating \$132.4 billion in output.

Ohio ranks No. 3 nationally in manufacturing jobs, with more than 675,000 workers.

Ohio manufacturing pays. The sector generates \$53.6 billion in annual payroll, the second-largest in the state, with average pay of \$79,285.

Ohio needs public policies that attract investment, strengthen competitiveness and protect manufacturing jobs.

Dear Fellow Ohioan:

The Ohio Manufacturers' Association has produced the *Ohio Election Guide* every two years since the 1990s, carrying it across four decades as a trusted, nonpartisan resource for Ohio voters.

This guide is used by policymakers, Statehouse staff, advocates, journalists and engaged citizens as a widely relied-upon reference for state, federal and judicial races. Its purpose is straightforward: provide clear, comparable information that supports informed participation in the democratic process.

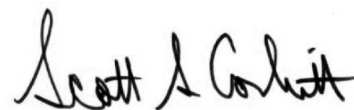

The *2026 Ohio Election Guide* includes:

- **Updated Congressional district maps** reflecting the most recent redistricting cycle
- **A refreshed political index** based on multiple recent elections, showing relative partisan performance by district
- **“Democrats say, Republicans say” perspectives** from leadership in both chambers on Ohio House and Senate contests
- **Current demographic profiles** for each district
- **District-level economic data**, including employment and payroll figures

As the nation marks the 250th anniversary of American independence, the responsibility of informed civic participation remains as important as ever. OMA is committed to providing reliable information that helps voters engage thoughtfully in elections that shape Ohio's communities, economy and institutions.

We thank the candidates willing to serve, the advertisers who support this publication, and encourage every reader to take part in this enduring civic tradition by voting this November.

Sincerely,

Scott Corbitt

Region Vice-President, State Affairs
Anheuser-Busch Companies
Chairman, The Ohio Manufacturers' Association

DEMOCRATS SAY: Rose Lounsbury is a former teacher and mom of teenage triplets who came within 5% of flipping HD 36 in 2024. She's running again—and intends to win this time—on a platform that supports public schools, voting rights, and affordable living for working families.

REPUBLICANS SAY: Dems keep trying, but the district knows that Andrea White is doing exactly what voters hired her to do.

Background information and campaign sources for the candidates as provided by the candidates themselves and/or publicly available sources.

The Ohio Democrat and Republican caucuses' lively viewpoints on the race.

The Political Republican Index is the percentage of Republican votes for the combined Democratic and Republican candidates in recent major elections. For more information, see page 3. Also displayed are the results of the district's voting performance in the most recent district, gubernatorial and presidential races.

Political R Index

Each district profile includes a political index number that represents the relative Republican/Democrat voting strength in that district. The OMA derives the Political Republican (R) Index from the performance of major party candidates in selected recent elections.

The political index used in the *2026 Ohio Election Guide* is based on Republican votes as a percentage of the sum of votes for Democratic and Republican candidates in the following statewide elections:

- 2024 Presidential
- 2024 U.S. Senate
- 2022 U.S. Senate
- 2022 Treasurer
- 2020 Presidential

Due to the redrawn General Assembly districts in 2023 and congressional districts in 2025, this year's *Election Guide* does not include trend data from previous years. However, it is important to note that both the Political R Index and the Political Landscape data in this publication include previous years' election results that have been aggregated to the new districts.

As with any political index, this measure is simply an indicator of past performance. It alone does not predict the outcome of an election. Other factors include the popularity and position of the candidates, fundraising, and the performance of the candidates at the top of the parties' tickets. The index is helpful, however, in determining the overall prospects for candidates, regardless of political party.

District Maps

The maps used in the OMA's *2026 Ohio Election Guide* were prepared specifically for this publication and are based on various publicly available sources. Maps correspond to the congressional, Ohio Senate, and Ohio House districts based on the 2020 U.S. Census. These maps are intended as a general reference to the location of election districts in Ohio.

The Ohio Constitution requires bipartisan agreement for new congressional and Ohio House and Senate districts to be in place for a 10-year period, until the next federal census. In the most recent redistricting cycle, the required bipartisan agreement was secured after previously not being met in the 2022 cycle—on September 26, 2023, for the state legislature and on October 31, 2025, for congressional districts. Maps and data for the 2026 Ohio Election Guide are based on the 2023 General Assembly and 2025 congressional maps and will remain valid until 2030.

To find out the district in which a specific city or location lies, contact your local board of elections or the Ohio Secretary of State.

Candidate Profiles

The candidate information in the OMA's *2026 Ohio Election Guide* was gathered by Hannah News Service, Inc. The information was provided by the candidates themselves and/or collected from publicly available sources. The Ohio Manufacturers' Association and Hannah News Service, Inc. do not make any representation as to the accuracy or completeness of the information contained herein. Special gratitude goes to the Hannah News Service, Inc. staff for their significant contributions to this publication.

For the latest updates after publication, visit the online *Ohio Election Guide* at www.ohiomfg.com/election-services.

Economic and Demographic Data

Please see pages (182 and 183) for descriptions of the methodologies used to produce these data. The OMA thanks the College of Public Affairs and Education and its Northern Ohio Data and Information Service (NODIS) at Cleveland State University for its work.

Rank columns accompany demographic and economic measures throughout the *Election Guide*. These show how each district compares against all other Ohio districts at the same scale for that measure (e.g., how a Congressional district compares to all other Ohio Congressional districts in Manufacturing employment). Higher ranks represent higher values on that measure. This means that a high rank for some measures indicate a poor outcome for the district (e.g., ranking number 1 in "No High School Degree").

Recognition

In addition to significant contributions by Cleveland State University and Hannah News Service, Inc., special thanks to Bricker Graydon Wyatt LLP for judicial elections data. Portions of this book may be reproduced if recognition is given to The Ohio Manufacturers' Association. For permission, contact the OMA at (800) 662-4463 or oma@ohiomfg.com.

2026 OHIO **STATEWIDE RACES**

Ohio voters will see a full slate of statewide races in the 2026 cycle, including races for U.S. Senate, Governor and Lieutenant Governor, Attorney General, Secretary of State, Auditor of State and Treasurer of State.

The marquee federal race is a special election for Ohio’s U.S. Senate seat. Republican U.S. Sen. Jon Husted, who was appointed to the seat after J.D. Vance resigned to become vice president, will face former Democratic U.S. Sen. Sherrod Brown. The winner will serve the remainder of the term ending Jan. 3, 2029.

Ohio’s open governor’s race will feature Republican Vivek Ramaswamy and running mate Rob McColley against Democrat Amy Acton and running mate David Pepper. The race will determine who succeeds term-limited Republican Gov. Mike DeWine.

2026 OHIO **SUPREME COURT RACES**

The Supreme Court of Ohio is comprised of the chief justice and six justices who run for election in even-numbered years. The Ohio Constitution provides that justices serve six-year terms. The number of terms they may serve is unlimited; however, no person may be elected or appointed to a judicial office once they reach age 70.

Beginning with the 2022 general election, the partisan affiliation of certain judicial candidates appears on the ballot. This includes races for the Supreme Court of Ohio.

Republicans currently hold a 6-1 majority on the Supreme Court of Ohio.

In November 2026, two Supreme Court seats are on the ballot. Republican Justice Daniel R. Hawkins is running for a full term beginning Jan. 1, 2027, against Democratic First District Court of Appeals Judge Marilyn Zayas. Democratic Justice Jennifer Brunner is running for a full term beginning Jan. 2, 2027, against Republican Colleen O'Donnell.

2026 OHIO COURTS OF APPEALS RACES

The Ohio Courts of Appeals have jurisdiction to review, affirm, modify, or reverse judgments of lower courts. The courts of appeals are the final level of appeal before the Supreme Court of Ohio.

The state is divided into 12 appellate districts. The number of judges in each district depends on a variety of factors, including the court's caseload and the size of the district. The number of judges in each district varies from four to 12. Members of the courts sit on three-judge panels and serve six-year terms.

Courts of appeals judges are elected in even-numbered years. Appellate judges must be attorneys with at least six years of experience in the practice of law and residents of their districts. The governor makes appointments to fill vacancies that occur between elections.

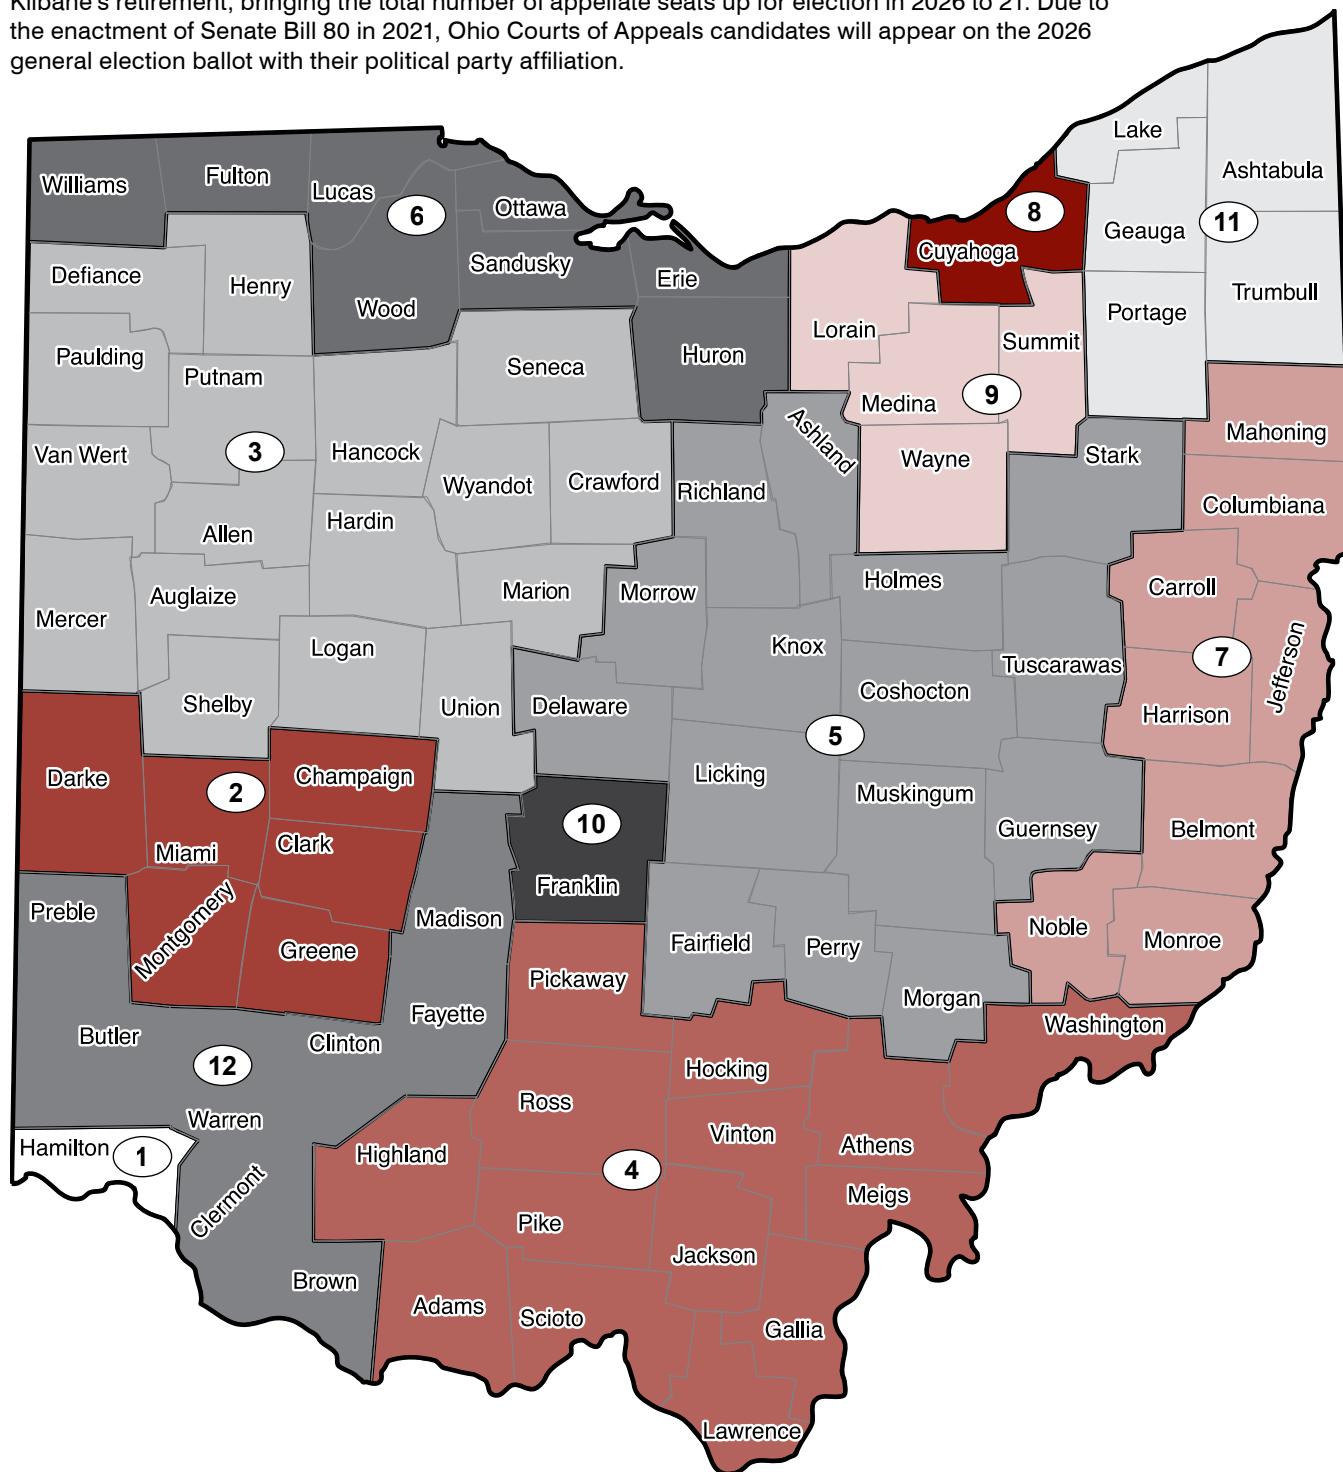

Of the 69 judges currently on the bench, the terms of 20 Ohio Courts of Appeals judges will expire on Dec. 31, 2026. One additional seat is on the ballot in a special election following Judge Mary Kilbane's retirement, bringing the total number of appellate seats up for election in 2026 to 21. Due to the enactment of Senate Bill 80 in 2021, Ohio Courts of Appeals candidates will appear on the 2026 general election ballot with their political party affiliation.

Matchups in all the courts of appeals races follow.

2026 OHIO

CONGRESSIONAL RACES

Ohio is divided into 15 congressional districts, each represented by a member of the U.S. House of Representatives. Each U.S. House seat is up for election every two years.

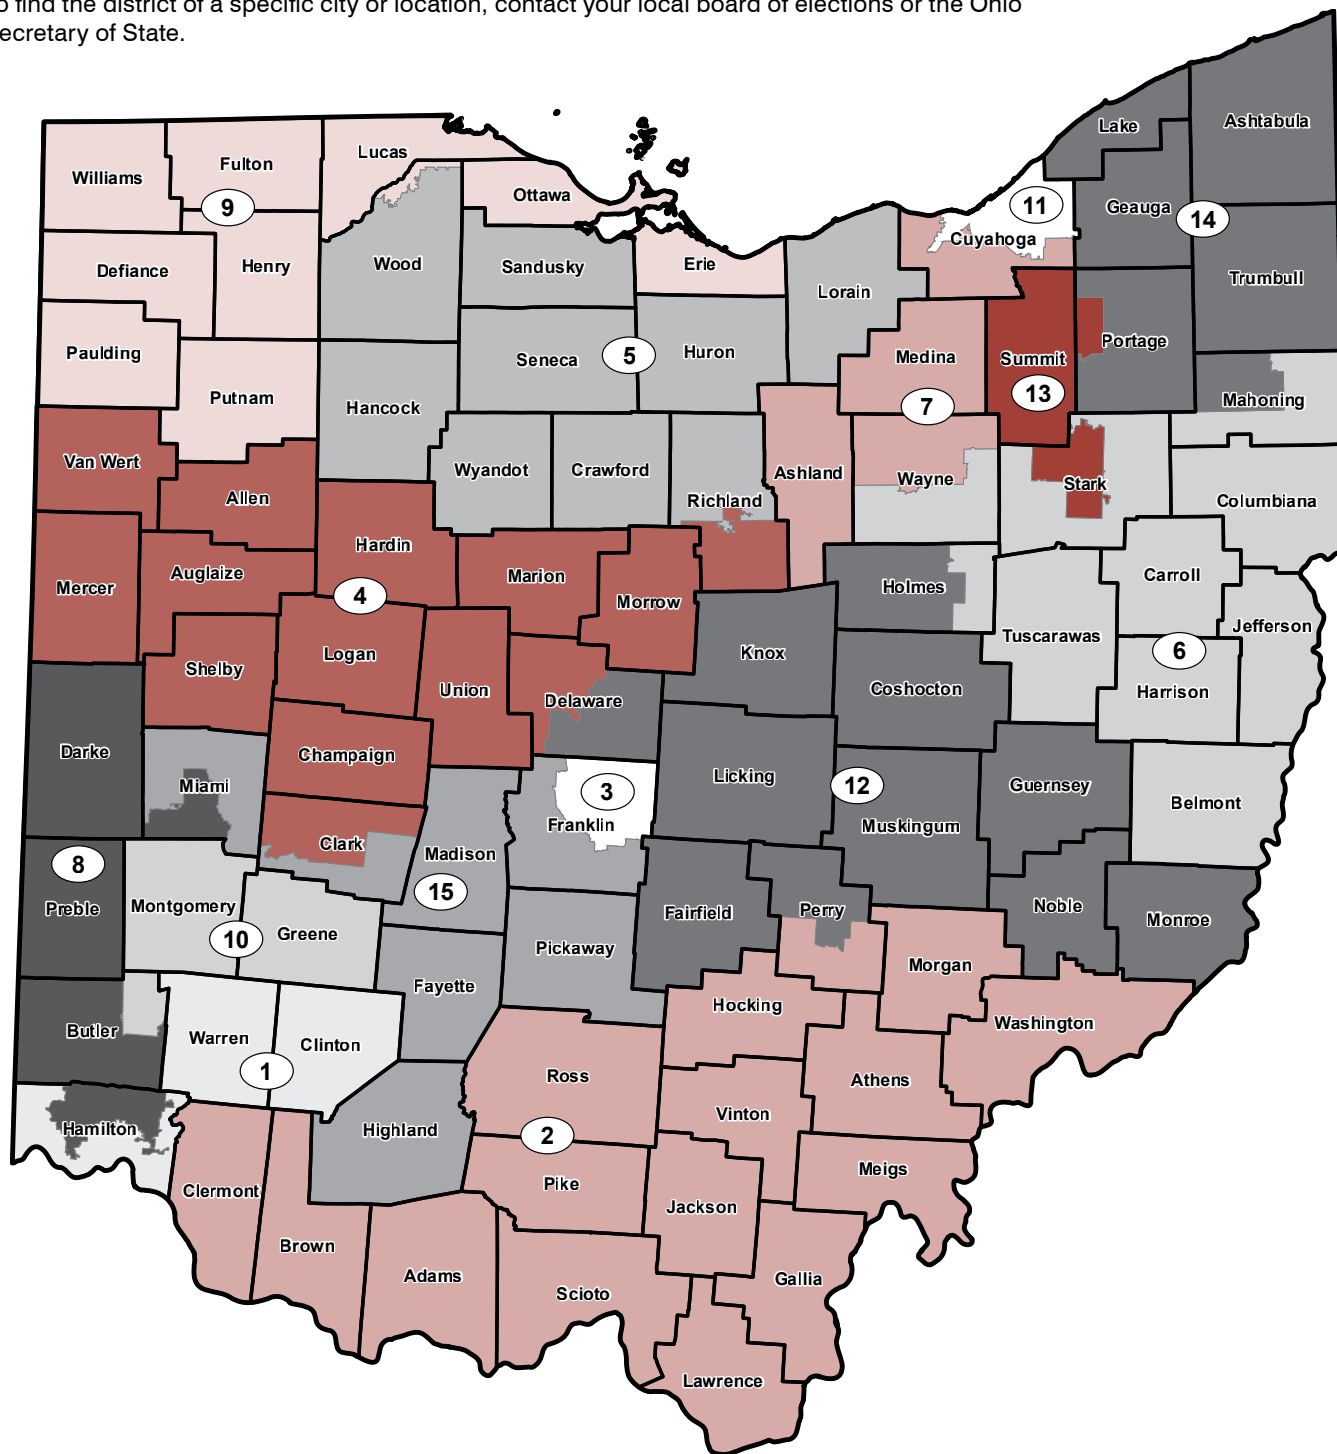

Ohio Republicans currently hold a 10-5 majority in the state's U.S. House delegation. All 15 seats will be on the ballot in 2026.

DISTRICT MAP

CONGRESSIONAL

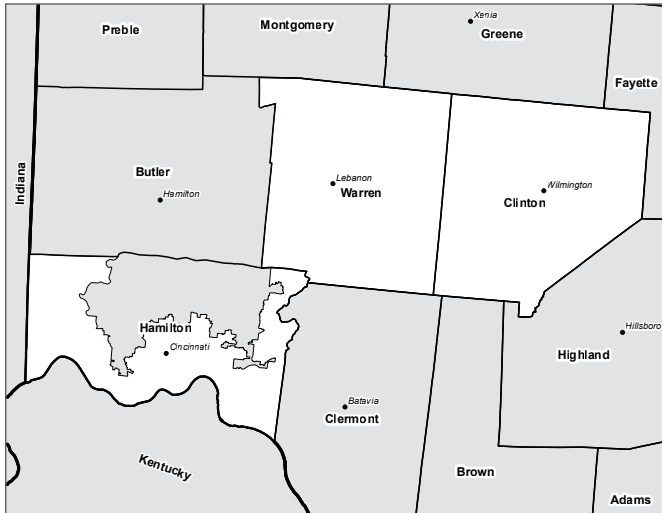

This map depicts Ohio's congressional districts for the 2026 elections. Ohio approved a new congressional map ahead of the 2026 cycle, and the map will be used to elect members of the U.S. House of Representatives.

To find the district of a specific city or location, contact your local board of elections or the Ohio Secretary of State.

2026 OHIO SENATE RACES

The Ohio Senate is comprised of 33 members who serve four-year terms. Senate districts are determined based on population and comprise three contiguous Ohio House districts. Every 10 years, following the federal census, the total population of the state is divided by 33 to arrive at the target population for each district. For the current General Assembly, based on the 2020 U.S. Census, the target population for each Ohio Senate district is 357,559.

The terms of senators are staggered so that approximately half the membership is elected every two years. Senators representing even-numbered districts are elected in years evenly divisible by four. Senators from odd-numbered districts are elected in the intervening even-numbered years. Under Ohio's term limits, senators are limited to two four-year terms.

Seventeen of the Senate's 33 seats, the odd-numbered districts, are up for election in 2026. All 33 Senate districts are included in the *Ohio Election Guide* so that the maps, as well as the economic and demographic profiles of all districts, are available to study.

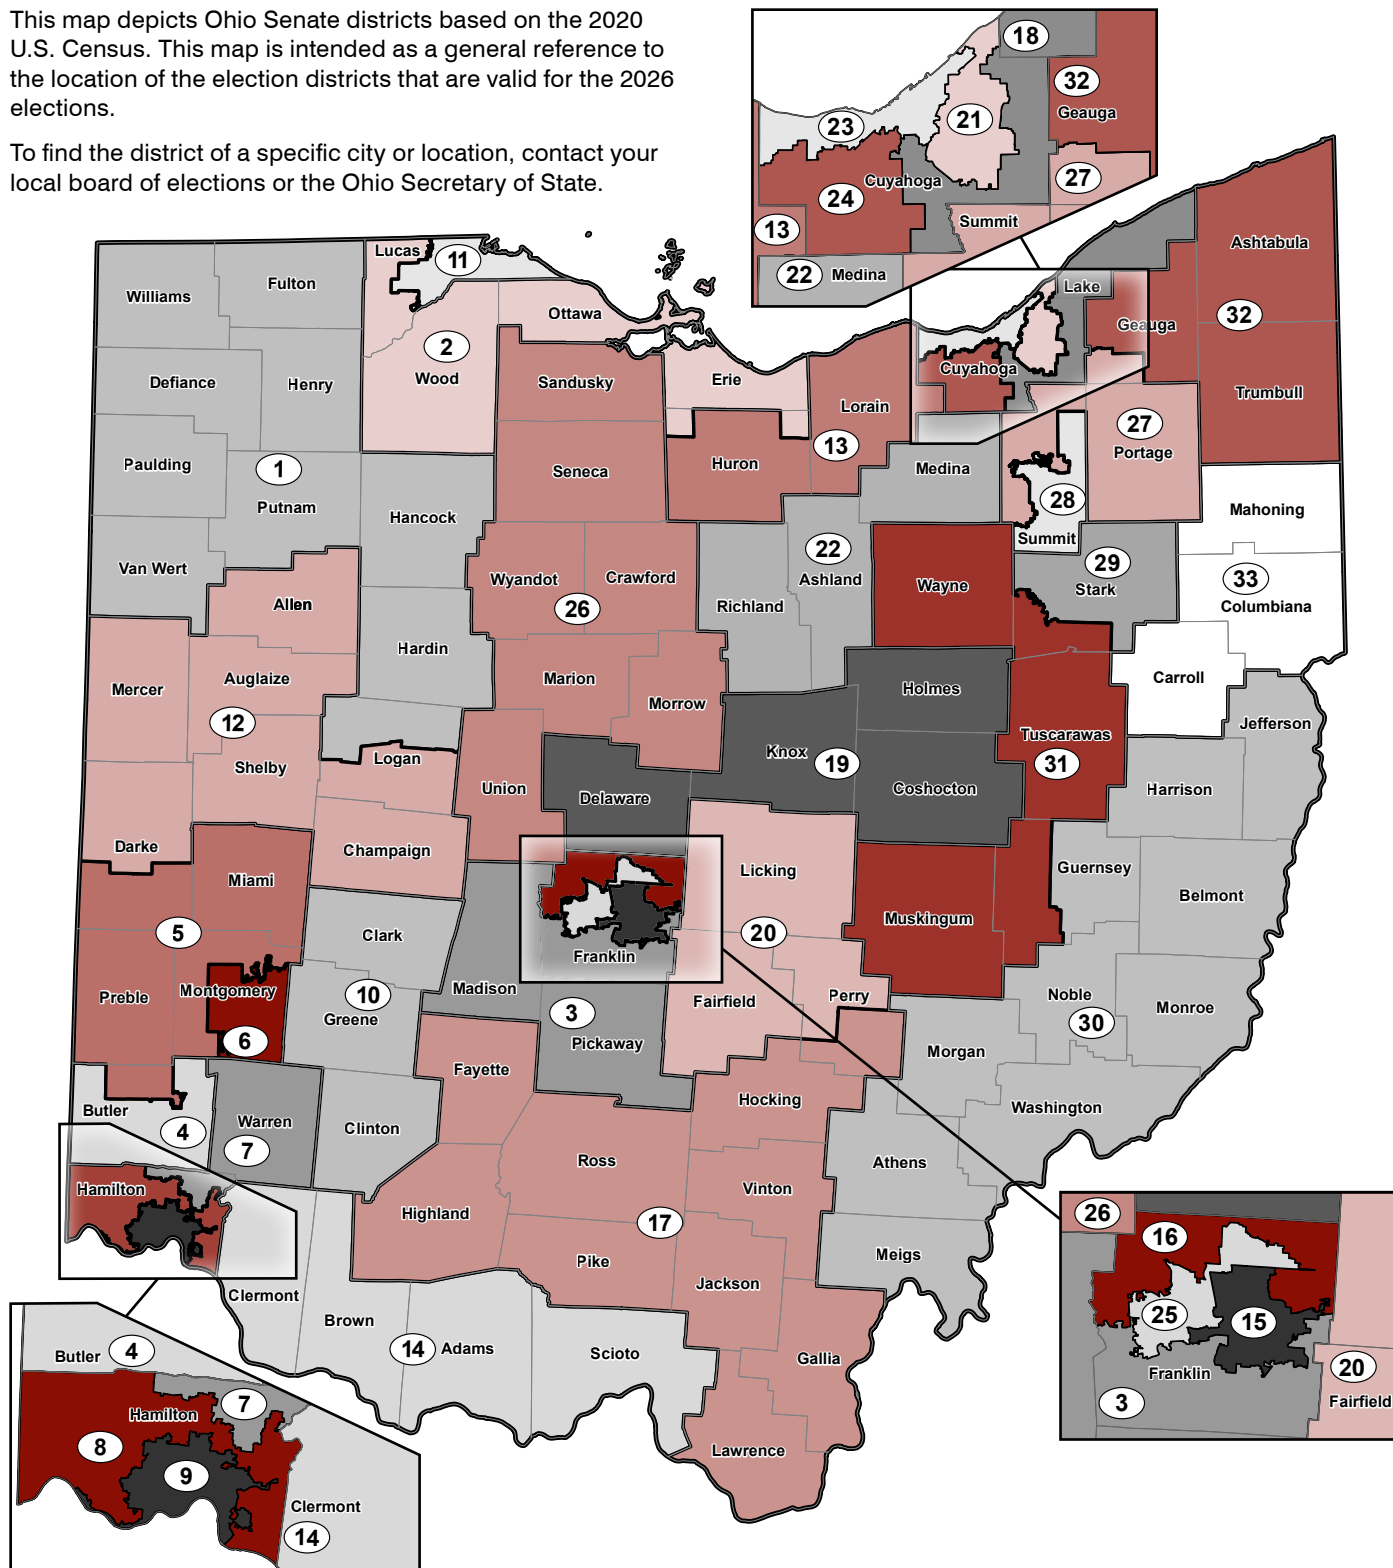

Republicans currently hold a 24-9 supermajority in the Ohio Senate and have been the Senate majority party since January 1985.

DISTRICT MAP

SENATE

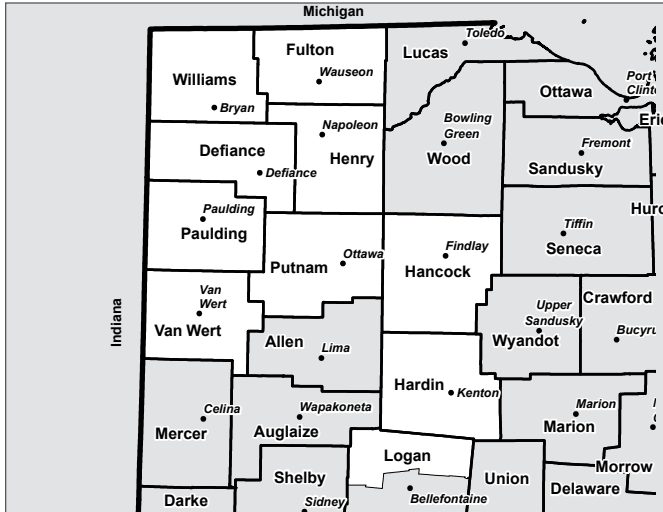

This map depicts Ohio Senate districts based on the 2020 U.S. Census. This map is intended as a general reference to the location of the election districts that are valid for the 2026 elections.

To find the district of a specific city or location, contact your local board of elections or the Ohio Secretary of State.

DEMOCRATS SAY: Ohio State Senator Kent Smith has represented Ohio's 21st District since 2022 after serving four terms in the Ohio House of Representatives. Before joining the Ohio Legislature, he spent 12 years on the Euclid School Board, where he never missed a meeting. He is the announcer for Cleveland's Burning River Roller Derby team and the elected head of the Euclid Democratic Party. He is a cat dad, an apple farmer, and an art and music fan.

REPUBLICANS SAY: A challenging district for the GOP, no doubt, but an experienced, hard-working candidate here could make it interesting.

DEMOCRATS SAY: As a graduate of The Ohio State University, Sen. DeMora is honored to represent not only the students on campus but also the rich diversity of communities in his district. Senator DeMora is a passionate fighter for the rights of Ohioans, standing up when national politics intrude on state affairs. Bill bleeds Scarlet & Gray; there may be OSU fans that love the university and teams as much as he does, but there is no one that loves them more.

REPUBLICANS SAY: As an Air Force veteran, police officer and attorney, Don Roberts has dedicated his career to serving families, protecting communities, and navigating complex legal challenges. And DeMora isn't the only OSU alum in this race. Vote Roberts!

2026 OHIO **HOUSE RACES**

The Ohio House of Representatives is comprised of 99 members who serve two-year terms. Under Ohio’s term limits, House members are limited to four consecutive two-year terms. Every even-numbered year, all House seats are up for election.

Legislative districts are determined based on population. Every 10 years, following the federal census, the total population of the state is divided by 99 to arrive at the target population for each district. Based on the 2020 U.S. Census, the target population for each Ohio House district is 119,186.

State House districts are nested within state Senate districts, so that each Senate district is made up of three contiguous House districts.

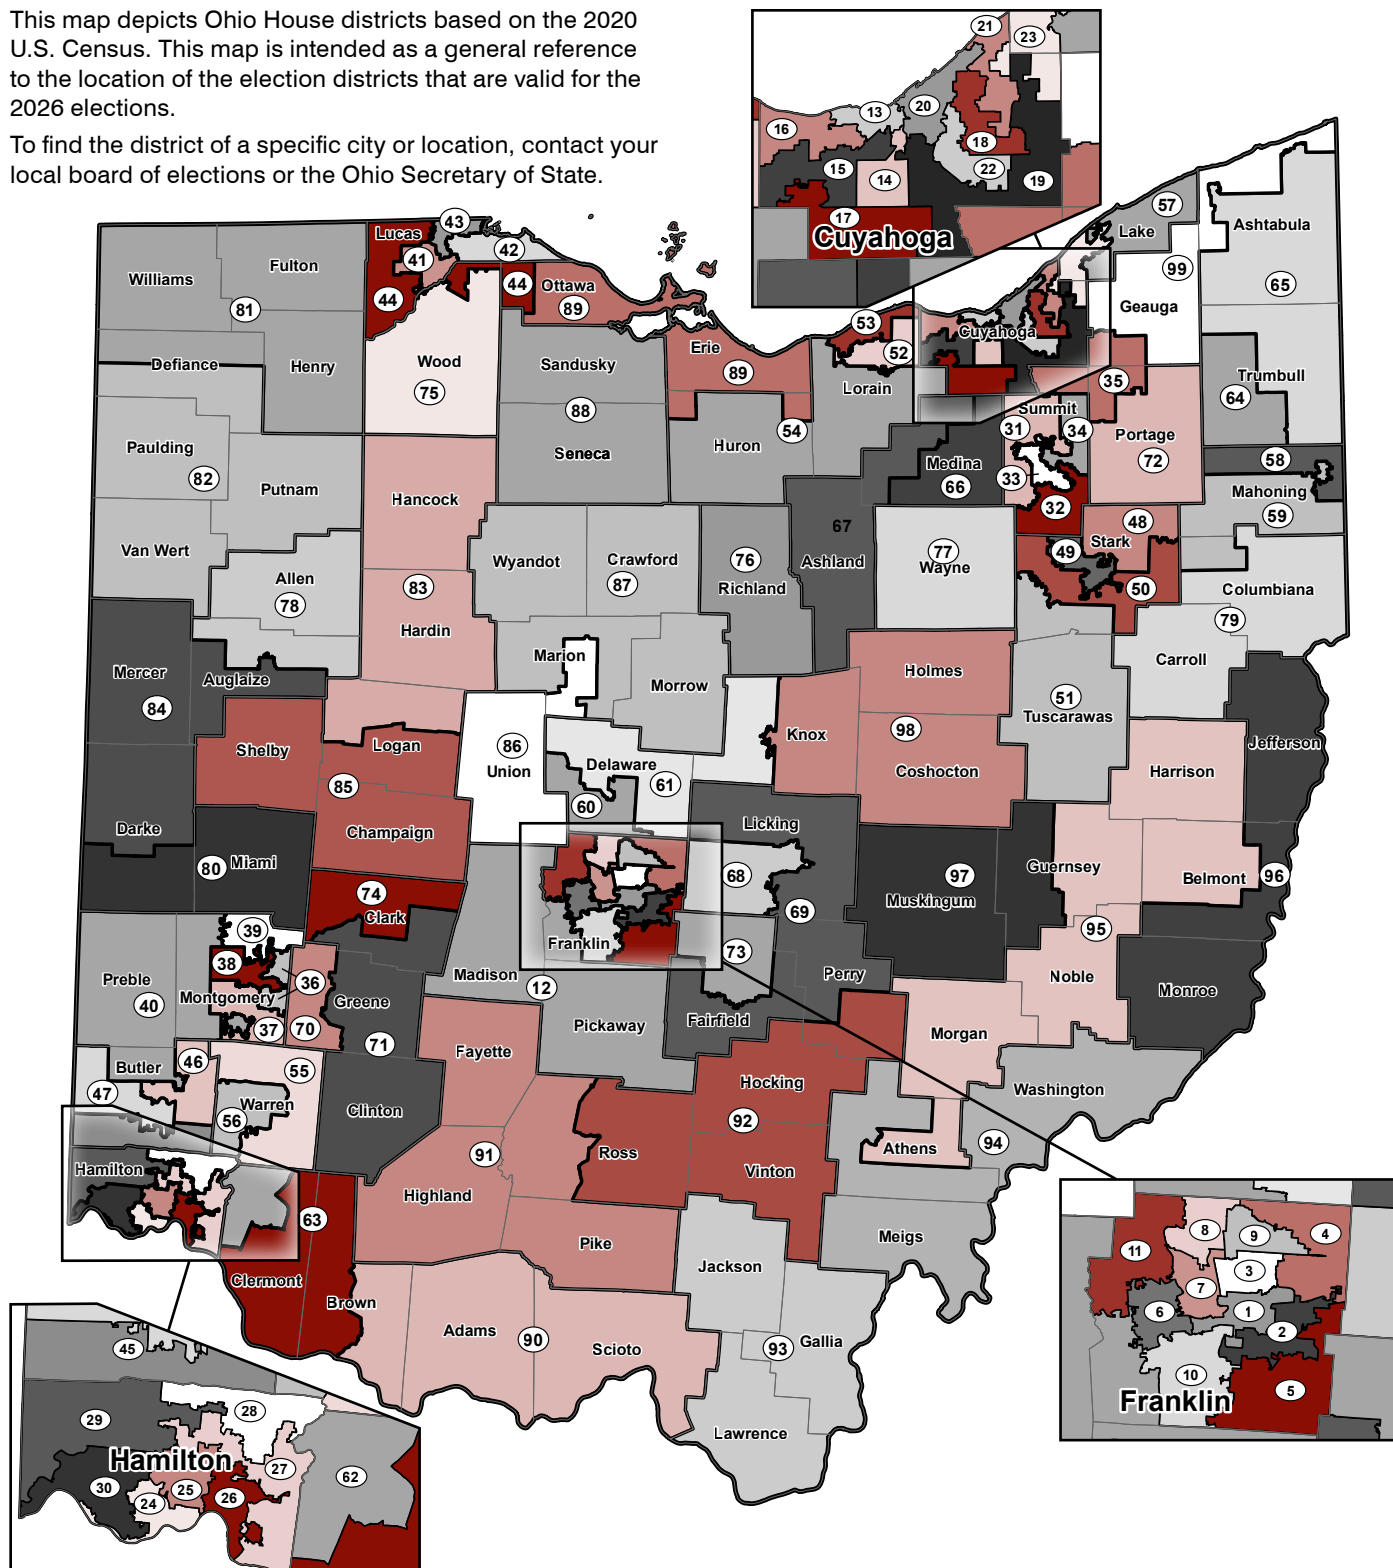

All 99 Ohio House seats are up for election in 2026. Republicans currently hold a 65-34 supermajority in the Ohio House. Democrats last gained control of the House in 2008, overturning a Republican majority that dated to January 1995. Republicans regained their majority in the 2010 election.

DEMOCRATS SAY: Ian Schwartz is a U.S. Air Force veteran, husband, father, and Democratic candidate for Ohio State Representative in the 62nd District, committed to bringing practical, people-first leadership to Columbus. His campaign is built around a simple mission: protect your wallet, protect your health, and protect your family by lowering costs, supporting veterans, strengthening public education, and expanding access to affordable healthcare.

REPUBLICANS SAY: After making a competitive primary look easy, Rep. Jean Schmidt will coast across the finish line for another victory.

DEMOCRATS SAY: Debbie Davidson, MPA (Glenn School of Public Policy, OSU) is a mom, veteran's spouse and activist who grew up when this WAS the Great State of Ohio. She is concerned that we are in a race to the bottom in all relevant economic indicators: health, education, GDP and jobs; reversing these trends by imposing budget discipline in Columbus is her primary goal as a legislator.

REPUBLICANS SAY: Adam Bird will once again carry this southern Ohio district with a big win.

METHODOLOGY

MAPS, DISTRICT LEVEL RESULTS & POLITICAL R INDEX

Ohio's Legislative and Congressional District Maps

July 2026

The state's current General Assembly districts were approved on September 29, 2023. On October 31, 2025, Ohio's current congressional districts were approved, altering the boundaries that were in effect for the *2024 Election Guide*. Outline maps of current Ohio legislative and congressional districts are found among the pages of the *2026 Election Guide*.

Detailed district maps suitable for printing at 3 x 4 feet, with municipalities, streets, rail and water features, are available from the Levin College of Public Affairs and Education, Cleveland State University.

General Assembly maps are at <https://levin.csuohio.edu/nodis/ohio-legislative-district-maps>.

Congressional district maps are at <https://levin.csuohio.edu/nodis/ohio-congressional-district-maps>.

Methodology Used to Produce the Political R Index for U.S. Congressional, Ohio Senate, and Ohio House Districts

July 2026

The Political Republican Index is the percentage of Republican votes for the combined Democratic and Republican candidates in the following elections:

- 2024 Presidential
- 2024 U.S. Senate
- 2022 U.S. Senate
- 2022 Treasurer
- 2020 Presidential

Election results for the 2022 and 2024 races, estimated at the census block level, were downloaded from the nonpartisan Redistricting Data Hub, current legislative districts added, and then summed by district. Results data for the 2020 races were available by precinct from the Ohio Secretary of State. Precinct results were estimated at the census block level by apportionment using voting age population. The block level estimates were then aggregated to the legislative district levels.¹

¹ Precincts can, and some do, change between elections, making their reuse infeasible across time. Census blocks are consistent from one ten-year decennial census to the next.

Methodology Used to Produce Demographic Estimates for U.S. Congressional, Ohio Senate, and Ohio House Districts

July 2026

Demographic data for the *Guide* are based on data provided from the Census Bureau's 2020–2024 *American Community Survey (ACS)*. They include percent of population in major age categories and race and Hispanic ethnicity, educational attainment, median household income, median home value, percent persons below poverty, and the rank orders of these estimates among districts. ACS estimates are based on survey data from five years and are averaged by the Census Bureau to provide adequate reliability. Monetary figures are in 2024 dollars.

Ohio's current congressional districts were approved too late for the Census Bureau to produce ACS estimates for the districts. To estimate congressional district-level data the ACS tract-level 2024 estimates were apportioned based on 2020 block-level population for the population variables and households for household income and housing value. Though based on a sample, ACS sample sizes for these election districts are large and generally result in relatively small sampling errors.

Methodology Used to Produce Economic Estimates for U.S. Congressional, Ohio Senate, and Ohio House Districts

July 2026

Annual employment and payroll data for 2023 by major industry sector are estimated for each district. Employment data at the census block level from the Bureau of Labor Statistics' *Longitudinal Employer-Household Dynamics database (LEHD)*, specifically the LEHD Origin-Destination Employment Statistics (LODES) data², were assigned to election districts and then summed to the districts.

Payroll estimates (wages) are available at the county level from the Bureau of Labor Statistics' 2024 *Quarterly Census of Employment and Wages (QCEW)*³. Proportions of employment by industry at the block level are used to apportion the county level industry wages to the legislative districts.⁴ It should be noted that payroll data do not include wages that are suppressed by the BLS for confidentiality purposes, though the excluded data are likely small. The 2026 *Guide* uses 2024 annual data for both jobs and wages.

² See <https://lehd.ces.census.gov/data/>

³ See <https://www.bls.gov/cew/downloadable-data-files.htm>

⁴ Some districts span county boundaries.
